Prince2[®] - Foundation and Practitioner

Course Outline

Prerequisites: Must be PRINCE2® Foundation and Practitioner Certified

PRINCE2® project management is used in approximately 70 countries worldwide and is by far the most popular project management methodology used in the UK in the private and public sectors.

Gaining a PRINCE2? Certification is highly recommended if you are considering project management as a career or are already working in a project environment as being PRINCE2® certified is a prerequisite for many Project Manager positions. .

The accredited PRINCE2® Foundation and Practitioner e-learning training course covers all aspects of the PRINCE2® Project Management method. The main body of the course consists of five lessons which cover an introduction to the method and basic concepts and Principles, through to the Themes and Processes which make up the PRINCE2® methodology.

Why study your PRINCE® Foundation online®

Technological improvements and advances in educational design mean that e-learning is no longer just a low cost alternative to traditional training methods. In many respects our courseware offers training which is superior to the majority of available .classroom. options. Not only is the effectiveness of the training process enhanced, but also the convenience and overall cost efficiency of e-learning makes it a compelling option for training. You can learn at your own pace and can repeat each section as many times as required unlike in a classroom environment.

Accreditation and Credentials

The E-Course is Accredited by Peoplecert and GAQM is an Authorised Training and Exam Organisation for Prince2®

Certificate

After you have completed the PRINCE2® Foundation and PRINCE2® Practitioner E-Course, you will receive an official course completion certificate and credits as per Prince2®.
